To all media houses

COPE to brief media on state of readiness ahead of Manifesto Launch this weekend

For immediate release

The Congress of the People will **tomorrow, Friday, 22 March 2024**, brief the media on the state of readiness ahead of the party's 2024 Election Manifesto Launch.

The Launch will take place at Suurman Hall in Hammanskraal, Tshwane, on **Saturday, 23 March 2024**.

The Party's manifesto will respond to the many challenges facing our country over the past 15 years of mismanagement, misrule, and poor leadership under the current government.

Due to its unique setting, Hammanskraal provides a microcosm of broader issues disadvantaged communities face. These include inadequate access to clean water, substandard healthcare, and limited educational opportunities. By holding our manifesto launch there, COPE acknowledges the specific challenges faced by this community and further underscores its commitment to addressing them.

The party's national committee will brief the media on COPE's state of readiness for the manifesto launch.

Furthermore, the party will also unveil its strategic collaboration with various associations that will be supporting the party ahead of the 2024 General Elections.
