THE ADMISSION BY THE ANC TO PROTECT AN INDIVIDUAL DELINQUENT OVER THE VALUES OF OUR CONSTITUTION

For immediate release

The reckless comments by Fikile Mbalula about their protection of their controversial former president are neither shocking nor surprising. They have protected a constitutional delinquent from many scandals over many years. They chose lies and deceit over the truth.

That Jacob Zuma was unfit to occupy the office of State President was apparent to all right-thinking South Africans. In March 2010, COPE submitted the first Motion of No Confidence to President Zuma after achieving democracy. More motions followed over subsequent years, but they were defeated, not because of their conscientious value but through a blind cult interest.

Their behaviour continues to undermine the Constitution's values and the rule of law. The tyranny of the ANC majority has subverted the integrity and sanctity of our parliament. The damage to our constitution's values and our parliament's integrity is immeasurable.

It is now clear to all South Africans that this ANC can never be trusted again. We call on the people of South Africa to go out in even more significant numbers to vote all these delinquents out of power.
