COPE leadership to conduct provincial visits to renew and build the Party

For immediate release

The Congress of the People will embark on provincial visits across the country to determine the state of the organisation, and to renew and consolidate the party.

The visit also aims to improve the electoral performance in preparation for the 2024 General Elections.

The first visit will take place in both Gauteng and Polokwane this coming weekend on Sunday, 26 November 2023.

The second leg of the visit will take place in the Western Cape and North West provinces on the 9th of December 2023.

The party will proceed with other provincial visits between December 2023 and January 2024.

“We are towards the end of the year when people will be busy with family matters, however, we must work hard and sacrifice to build the organisation,” said Pakes Dikgetsi, member of the Congress Executive Committee and acting spokesperson for COPE.

The visits will be divided into two groups, in order to reach all provinces by the end of February 2024. This will assist the party greatly in renewing and rejuvenating the membership and leadership of COPE in the provinces, sharing information regarding the state of the organisation at a national level, as well as discussing a programme to prepare for the 2024 National and Provincial Elections.

The programme for both Gauteng and Limpopo are as follows:
